

01 ST-1001 Automatic PE Shrink Fabric Packaging Machine

ST-1001 全自动PE热缩包装机/Automatic PE Shrink Fabric Packaging Machine

全自动包装机分为主机、热收缩机、皮带（翻布）输送机三部分

The automatic fabric packaging machine is formed from three parts: fully automatic packaging machine, Heat shrink packaging machine, Belt conveyor(or with cloth turning function). If needed, also could equipped fabric climbing machine for transfer fabric.

1. 全自动化包装机/Fully Automatic Packaging Machine

- ◎ 型号：ST-2300/ST-2800/ST-3300
- ◎ 主要功能：配置输送机构，自动PE膜送料，封口裁切机械结构，将圆卷布匹等卷状产品。送入本机内以达到自动包覆PE膜并在3处以热封刀封口后，裁切多余废料之自动化设备。
- ◎ Model: ST-2300/ST-2800/ST-3300
- ◎ Constituent parts: conveyor, automatic PE film feeding device, PE film sealing & cutting device.
- ◎ Function: send the fabric via conveyor, automatic coating of PE film and cut the extra material, then sealing the film at 3 places.

2. 热收缩机/Heat Shrink Packaging Machine

- ◎ 型号：ST-3500
- ◎ 主要功能：配置于包装机后，使用鳍片式加热器将空气升温并以循环对流方式收缩PE膜。
- ◎ 布卷以条杆轨道输送的方式通过加温通道的自动化设备。
- ◎ 须选用收缩膜。
- ◎ Model: ST-3500
- ◎ Main function: it's a downstream equipment of packaging machine. Using plate heater to heat the air and shrink PE film by circulated convection.
- ◎ Cloth rolls automatic convey to the heating channel by conveyor.
- ◎ Must choose shrink PE film.

3. 皮带(翻布)输送机/Belt (canvas) Conveyor

- ◎ 型号：ST-345皮带输送 / ST-355加翻布功能
- ◎ 主要功能：配置于主机之前或后端，以皮带输送布卷并以适当的速率将布卷送入主机或带出主机至下一流程之输送设备。
- ◎ Model: ST-345 belt conveying / ST-355 belt conveying with cloth turning function
- ◎ Main function: It is configured in front of or behind the PE Shrink fabric Packaging machine. It conveys the cloth rolls to the next process.
